The duets in this collection were written to be played by my students and me for fun and to improve their jazz phrasing and concepts. Originally written as complete musical works for two players, these duets can also be accompanied in several exciting ways.

A drummer playing simple “time” will complement the duet parts and add rhythmic impact. The chord symbols can be used by a bass player and/or pianist to provide a small jazz group effect. The accompanying Compact Disc contains a bass and drum background track that is ideal for both lessons and independent practice.

The duets are published in four versions: Two Flutes, Two Trombones, Two Trumpets, Trumpet and Trombone. The actual music in each collection is essentially the same, although i have modified each version to work with the instruments chosen.
